The automotive industry in India is one of the largest and fastest growing in the world. Passenger car sales have grown 137 percent in the past six years. With the economic downturn in the west, global car makers are capitalizing on the world's 6th largest car market and enhancing manufacturing operations to benefit from the country's competitive engineering skills and cost-effective labour.

The 2nd India Automotive Summit will take place on July 26th – 27th, 2012 in Pune. This event endeavors to bring together major players in the industry to discuss critical topics including the rising demand for diesel engine vehicles in India, fuel consumption and new energy-efficient technologies, as well as the opportunity of global sourcing and India's leading role.
Confirmed Speakers

Mr. Rajeev Kapoor
President & Chief Executive Officer
Fiat Automobile India

Mr. Debasis Mitra
Director - Sales & Marketing Passenger Cars
Mercedes Benz, India

Mr. Rakesh Mehta
Vice President, Head of Automobile Division
Premier Ltd

| 09:00 | Overview of India's Automotive Sector – Issues, Challenges & Solutions  
- Latest trends of India's automotive industry, production and sales  
- Important statistics about India's passenger vehicle sector compared to other major markets, targets and progresses  
- Challenges facing the industry and the solutions |
| 09:45 | Creating a Favourable Investment Environment for Automotive Development  
- Impact of government policies on the automotive industry of India through the whole supply chain  
- Importance of consistent policy support for the sustainable development of the industry  
- Key drivers to make India the automotive hub in Asia Pacific |
| 10:30 | Networking Tea Break (Sponsorship Available) |
| 11:00 | Impact of Rising Fuel Prices on the Automotive Industry and Its Solutions  
- Understanding customers' reaction to the rising fuel prices  
- Reasonably positioning yourself in the industry and strategically planning your business portfolio for continued growth  
- Implementing innovative technologies to improve fuel efficiency and reduce CO2 emission |
| 11:45 | Tailor-making Affordable Cars for the Indian Market  
- Understanding Indian customers' preference in car selection  
- Leveraging technological innovations to reduce cost in auto manufacturing  
- Making India the low-cost vehicle hub to serve domestic and international markets |
| 12:30 | Luncheon and Networking (Sponsorship Available) |
| 14:00 | Optimizing the Automotive Manufacturing Process  
- Addressing safety in auto manufacturing  
- Tailor-making your solutions for powertrain  
- Precise coordination for the automotive assembly line |
| 14:45 | Clean Diesel Car Technology for India  
- Challenges of powertrain system and issues for meeting international emission requirements  
- Low emissions & fuel efficient diesel car technology  
- Forecasting challenges that may arise for the diesel cars |
| 15:30 | Networking Tea Break (Sponsorship Available) |
| 16:30 | Discussion Panel Session: Changing Trend and Rising Demand for Diesel Engine Vehicles in India  
- Significant price difference between petrol and diesel contributing to the rising demand of diesel vehicles  
- The reaction of OEM's, suppliers and customers  
- Rationally reacting to the trend and strategically adjusting your business portfolio  
- Latest technology breakthroughs in diesel engines, injection and exhaust aftertreatment |
| 17:30 | Closing Remarks at the End of Day One |
DAY 2

08:00  Registration and Morning Tea

08:50  Opening Speech from the Chairman

09:00  International Partnership in the Automotive Industry
      • A statistic overview of recent merger and acquisition trends in the automotive industry
      • Increasing number of cross-border corporate-level collaborations recently
      • Increasing functional collaborations through technology and platform sharing to improve ROI

11:00  Automotive Design and Localisation in India
      • Global automotive design trends and future
      • Impact of efficiency concerns on design and material selection
      • The Indian perspective of automotive design and engineering compared to other major markets

11:45  Challenges and Opportunities in Vehicle Lightweighting
      • Improving on designs to reduce vehicle weight
      • Developing sustainable cost-effective lightweight strategies for future vehicles
      • Impact of the price fluctuation of rare earth materials on vehicle lightweighting and the automotive industry as a whole

12:30  Luncheon and Networking (Sponsorship Available)

14:00  Development of Electric and Hybrid Vehicles in India
      • Government initiatives to promote environmentally sustainable technologies for hybrid and electric vehicles
      • Current challenges facing the development of the electric and hybrid sector
      • Building electrical infrastructure and creating energy storage systems through technological innovation

14:45  Global Sourcing for Cost Control
      • Collaborative efforts between OEMs and component vendors as a strategic activity for regular supply, cost reduction and continued innovation
      • Key areas in successful global delivery including inventory management, scheduling and timely delivery
      • Asia Pacific's contribution to the global outsourcing

15:30  Networking Tea Break (Sponsorship Available)

16:30  Discussion Panel Session: Shaping the Future of the Automotive Industry in India
      • Impact of the Union Budget 2012 – 2013 on the Passenger Vehicle Sector and the Industry’s Reaction
      • Identifying the potential business opportunities with regard to the evolving technology
      • Forecasting challenges that may arise for the auto industry in the future (natural disasters, policy changes etc)
      • Gearing up for the second half to meet the objectives of India’s Automotive Mission Plan 2006 - 2016

17:30  Closing Remarks at the End of Day Two

2nd India Automotive Summit 2012
26 – 27 July, 2012, [The Westin Pune, Koregoan Park], Pune, India

NETWORKING TEA BREAKS
Network with executives and officials in a relaxed environment.

ONE-TO-ONE BUSINESS MEETINGS
The objective for you to attend our conferences is to meet prospects and create initial contact, or develop an existing lead. We provide you your own table where you can welcome your clients and do business!

KEYNOTE SPEAKERS
Hear from the experts and learn about how the industry is expanding and how you can make your mark.

ORGANIZED LUNCHES & DINNER
Solidify your new business relationships in a more causal environment.

PANEL DISCUSSIONS
Hear from the experts and raise questions to them regarding your specific needs.

PRIOR NOTIFICATION OF ATTENDEES
Receive attendee information one week prior to the event.
