

Achieve Hard Bottom-line Impact through Performance Excellence

A Performance Excellence (PE) drive in the organization can give “that extra” and assist in unlocking potential. In today’s context, its just what organizations need so as to shore up and substantially strengthen bottom-line performance. A structured PE drive in the organization has the power to deliver breakthrough improvements in the areas associated with defect & wastage reduction, enhancing throughput, quick change-over, productivity and increasing speed of delivery to customer.

The Session (13th November 2009 at Cidade de Goa)

The session is designed to provide you a complete view of Performance Excellence implementation and includes insights into methodologies such as Lean & Six Sigma. The drivers of successful implementation such as leadership engagement, change management and possible deployment approaches will be discussed. Relevant case studies will be used to demonstrate application. To enable a quick start on PE deployment post the session, a self-assessment tool will assist participants determine their current state and apply learning generated to create an implementation roadmap.

The contents of the one-day session are:

- Overview of Performance Excellence
- Organizational Self-Assessment
- Results from Performance Excellence – Case Studies
- PE Deployment Roadmap
- Self Assessment Results Sharing and One-on-One Discussions

Key Takeaways

On completion of this session, participants will be able to:

- Understand the concepts of Performance Excellence and associated results
- See practical application of Performance Excellence for resolving real business issues
- Understand current state of your organization based on self-assessment
- Roadmap for PE deployment in your organization

BMGI will be available post the session for one-on-one discussions on likely next steps for your organization!!
